

### PRINCIPLE 18 Long-term care

| <b>Actions aimed at setting a minimum floor of rights in the EU, a level playing field in the Single Market</b>   | <b>Actions aimed at establishing upward convergence in living and working conditions</b>   |
|---|--|
| <p>1. Guarantee access to quality and affordable health and long-term care (LTC) in all MS.</p> <p>2. Free movement: Revision of Regulation 883/2004 on coordination of social security systems to strengthen the coordination of such systems including health and LTC in order to improve the rights of mobile workers.</p> | <p>1. EU Right2Care programme, backed with national action plans through the European Semester, based on transparent and ambitious objectives (monitoring the right of access to free public health services).</p> <p>2. Monitoring capacity, functioning and impact of occupational welfare, role that it plays in national systems, under what condition it is beneficial for people and role of collective bargaining.</p> <p>3. EU initiatives to strengthen the resilience of publicly-funded, universal and accessible healthcare systems. Monitor public investments in high level education and training in the sector and establish a link with the care needs satisfied.</p> |
